

F5 – F9 Revision Tests Guidance Document

We are pleased to introduce revision tests for your students to help them prepare for the F5 – F9 Session CBEs.

Please find some useful information about the tests below:

Revision tests for F5, F6 UK, F7 and F9 consist of:

1. Interactive PDF document for Section A and B
2. Separate Excel file for Section C
3. A PDF document with answer explanations for Section A, B and C.

Revision test for F8 consists of:

1. Interactive PDF document for Section A
2. Separate Excel file for Section B
3. A PDF document with answer explanations for Section A and B.

How to use the revision tests:

1. Tutors make the interactive PDF and the separate Excel file available to their students.
2. Students complete, save and return the tests to their tutors for marking.
3. Tutors can then refer to the PDF answer explanations when marking, and also make the answers available to students with their marks.

Key features of the revision tests:

- The key thing to be aware of is that this resource *does not reflect the live exam experience*.
- The questions are presented in a way which closely mirrors, but is not the same as the live exam.
- If you have not done so already, please use the full specimen exam and other resources available at <http://www.accaglobal.com/gb/en/student/exam-support-resources.html> in class with your students.
- The full specimen exam has been prepared by ACCA's examining team and reflects the live exam experience in terms of its structure, range of questions and functionality, and you must ensure your students are using these resources as part of their exam preparation.
